

## Corporations that Control

Lets just consider one fact in order to get a perspective on what is going on in healthcare research. The same corporations that make and CONTROL the creation of dangerous chemicals, like pesticides, that are proven to cause cancers also make it their business to produce and CONTROL the sale of “drugs that cure” cancers.

In addition they also restrict and CONTROL the research funding to benefit more drug production and draw attention away from environmental factors that are a contributing factor in cancers and AIDS as well as most other diseases. The whole drug system is self-enriching at the cost of humanity.

Usually corporate magazines such as Fortune, only publish the pro corporate views, since the survival of all ad-supported media is entirely CONTROLLED by the mafia-like run ad agencies, that can pull the plug on ALL the major advertisers and seriously jeopardize, even large and established magazines, like Fortune. This is why I am really pleased that Fortune and Seattle Times actually did publish articles that expose the systematic corporate CONTROL in research and handling of toxic wastes.

### Why We're Losing The War On Cancer (and how to win it)

Quotes from the Article:

1. “Americans dying from cancer is still what it was in 1970... and in 1950.”
2. “If you look at the millions of mice that have been cured of cancer, and compare it to humans, you realize there just has to be something wrong with those models.”
3. “Metastasis is a big idea. It's hard to do replicable experiments with so many variables. But it's the kind of research we need.” [March issue, 2004]

### Fear in the fields: How hazardous wastes become fertilizer

by Duff Wilson, Seattle Times Staff Reporter

Like you know legislative CONTROL is the way to corporate riches and that is why they now want CODEX to become the law in USA. Tim Bolen, a Consumer Advocate states that “We're in trouble in the US over the “Co-dex” problem. Why? Because there is too much conflict among the people who should be working together to solve the problem”.

This is consistent with my experience, after sending out the November 2005 email newsletter explaining the strategies explaining how [www.healthfreedomusa.org](http://www.healthfreedomusa.org) wants to stop CODEX, I was contacted by John Hamel from International Advocates of Health Freedom ([www.iahf.com](http://www.iahf.com)). He adamantly does not agree with the view that we can change CODEX and claims the only solution is to kill CAFTA/ FTAA. You can see the letter at <http://www.drclarkstore.com/inadofhefr.html>.

**What action can we take?**

Most people don't take any action, never write their Government Servants, the politicians know that only one in about 10,000 people bother to write them about their views. This is why you can have the power of 10,000 people behind you when you spend 5 minutes on the computer.

Please log onto [http://www.stoptheftaa.org/artman/publish/article\\_439.shtml](http://www.stoptheftaa.org/artman/publish/article_439.shtml) and help by telling Congress what you want. Another action you can take with little effort is to log on to file:///Macintosh%20HD/Users/oskarthorvaldsson/Desktop/OMT%20Documents/Biz/Sites/Dr%20Clark%20Store%20Web/Newsletters/www.SaveOurSupplements.org - Please also do further research and write me about what else we can do.
